## TABLE OF CONTENTS

INTRODUCTION.....PAGES 1-3

LIST OF PUBLICATIONS ALPHABETICALLY BY TITLE....PAGES 4-22

LIST OF PUBLICATIONS ALPHABETICALLY BY PUBLISHING  
DIVISION WHICH HAS AGREED TO DISTRIBUTE  
MATERIAL.....PAGES 23-41

INTRODUCTION  
27 JULY 1988

COVERAGE

The publications listed are those received by the Central Library from October 1986 through July 1988. They constitute additions to the previously published documents entitled Publications of the Massachusetts Department of Public Health Now Available in the Central Library's Collection as of July 1986, and Publications of the Massachusetts Department of Public Health Supplement 1 September 1986.

The lists were developed by the Central Library primarily for its own internal use in documenting Department of Public Health (DPH) publications. Only publications that were authored by DPH and have not been published elsewhere have been included. Therefore, neither journal articles nor reprints of federal pamphlets with a division's name added are included.

There are two lists: one arranged alphabetically by title, the other alphabetically by the publishing division which has agreed to distribute the material. Alphabetization was done by the database program, Dbase III+ which arranges numbers in numerical order preceding the alphabet.

The division list doubles somewhat as a subject list. However, this can be a problem as divisions are constantly changing names and undergoing reorganizations. Also, some items are published under the main division name, such as "Family Health Services", while others are published by subunits of Family Health Services such as "Women's Health". Since the Fall of 1987, the Department has been going through a reorganization process oriented towards the age group of the target population. New division names are preceded by an asterisk. The following "SEE ALSO" references are provided to assist in locating all publications concerned with these departments:

\*AIDS Program.... SEE ALSO...Laboratories and Communicable  
Disease Control  
Health Resources

\*Child and  
Adolescent  
Health.....SEE ALSO...Family Health Services

Dental Health.....SEE ALSO...Nonsmoking and Health

Environmental  
Epidemiology  
and Toxicology....SEE ALSO...Health Promotion and Environmental  
Disease Prevention (CON'T)

## Page

An attempt was made to verify authorship, determine dates

where none were printed, and identified errors on title pages. Publications without any determinable authorship are listed under "[Administration]". Publication dates assigned by the library are also placed in brackets. The titles of the publications are listed exactly as they appear on the cover page. Errors in title pages are followed by "[sic]".

#### COPIES

For copies of an item, please contact the person in the division list with the telephone number provided.

The items should also be available in the collections of the state depository libraries, such as the Boston Public Library and Springfield Public Library. The Central Library cooperates with the state document depository program and sends copies of every item to the State Library for distribution to the depositories.

## LIST OF PUBLICATIONS ALPHABETICALLY BY TITLE

1982-1985 SPECIAL REPORT; CANCER INCIDENCE IN MASSACHUSETTS.
